

Project Design Phase-I
Proposed Solution Template

Date	23 September 2022
Team ID	PNT2022TMID33498
Project Name	IOT Based Smart Crop Protection System for Agriculture
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	The problem statement for our project is want to preventing crops from animals and insects.
2.	Idea / Solution description	By using Iot,Arduino and some other components to monitor the crops in field at anywhere.
3.	Novelty / Uniqueness	Compared to others project,It is easier to maintain crops at anywhere and also cost efficient.
4.	Social Impact / Customer Satisfaction	By this project,We can yield a high quality crops and prevent he crops to provide high yield to customer.
5.	Business Model (Revenue Model)	It is more cost efficient.
6.	Scalability of the Solution	It will be useful for more than 10 years.
